
Stafford Area

TOPOGRAPHY

Topography [1]

- Major Contours - 100 ft. Interval
- Contours - 10 ft. Invertal

Map Legend

- Metro Urban Reserves: 4A, 4B, 4C
- Steep Slopes (Greater than 25%) [1]
- Streams within Focus Area [2]
- Other Metro Area Streams [2]
- Rivers
- Metro Urban Growth Boundary
- Incorporated Areas

MAP ORGINALLY PUBLISHED: JANUARY 2016

0 1,000 2,000 4,000 Feet

Data Source: Metro RLIS and West Linn GIS

[1] Steep Slopes & Topography: Metro Regional Land Information System (RLIS).

[2] Streams shown on this map in areas 4A and 4B have been developed by West Linn GIS using 2004 LiDAR surface models. Additionally, Metro's Data Resource Center and the City of Lake Oswego GIS provided reference information to improve the accuracy of the mapping. Please note however that field surveys have not been performed to verify water flow or exact stream locations. For Area 4C, generalized (less detailed) stream mapping was used.
