

## **Salamo Road Paving Work To Begin on August 12, 2010**

**Press release date:** 2010-08-05

WEST LINN – Salamo Road paving work is slated to begin on August 12, 2010. Paving is part of major street subgrade stabilization and grinding work that began in mid-July.

Continued traffic delays along Salamo Road should be expected for the duration of this project. Paving will begin at Rosemont Road down to Vista Ridge. Catch basin work near Vista Ridge will be completed, and then the remainder of Salamo Road will be paved.

This project is funded from a \$900,000 economic stimulus grant. Concurrent projects include ADA pedestrian curb ramp work between Crystal Terrance Drive and Rosemont Road. The sub-contractor for this project is Eagle Elsner. Please direct any questions about this work to the West Linn Public Works Department at 503-722-5500 or [ggreen@westlinnoregon.gov](mailto:ggreen@westlinnoregon.gov).
