

Winter Weather Routes

The City of West Linn will post winter weather information on its [home page](#) and on its [Facebook page](#) and [Twitter](#) when necessary.

The winter weather route map shows primary and secondary snow plowing, de-icing routes and streets subject to closure during snowy and icy weather in West Linn. Please call 503-656-6081 or email webmaster@westlinnoregon.gov with questions or with requests for service.

Please note that primary snow and ice routes include major and minor streets, with the focus on facilitating access to local arterials. Other collector and neighborhood streets are the secondary focus, and will be addressed after primary routes are cleared. [READ MORE...](#)
