

Bland-Rosemont Intertie Request for Proposals

The City of West Linn

Request for Proposals

for

Professional Engineering Services

for

Design, Preparation of Construction Documents and Construction Management Services for a Municipal Water System Capital Improvement Project to Construct a New Bland Potable Water Pump Station (Complete) and Associated Ductile Iron Piping and Appurtenances to Interconnect between the Bland and Rosemont Pressure Zones in West Linn.

The City received four proposals:

1. Kennedy-Jenks Consultants
2. 4B Engineering & Consulting LLC
3. Murray, Smith & Associates
4. Gray & Osborne, Inc.

The City will evaluate the proposals and determine the most suitable consultant for the City and for the project. The City appreciates all the consultant's submittals. Results will be posted on the web and mailed to all the applicants.
