

Solarize West Linn/Lake Oswego

The City of Portland's Bureau of Planning and Sustainability awarded \$9,000 to Clackamas County to initiate public outreach and recruit homeowners who are interested in installing solar photovoltaic and/or solar hot water systems in their homes. Solarize West Linn-Lake Oswego is a community led effort to simplify the process of adding solar power to your home in West Linn or Lake Oswego. We've pre-selected a contractor based on cost, quality of work, experience and ability to handle the high volume of installations that are expected during this promotion. You can rest assured that you are getting the best deal for your money; we've done the research so that you don't have to. Over the next two months, we'll be hosting informational workshops in West Linn and Lake Oswego to discuss different solar technologies and the tax credits and incentives that are possible through this Solarize initiative.

Upcoming Events:

- April 12, 2012: Basics of Going Solar, 6:30 pm - 8 pm, Willamette Christian Church, Terrace Room, 3153 Brandywine Dr., West Linn
- April 17, 2012: Basics of Going Solar, 6:30 pm - 8 pm, West End Building, 4101 Kruse Way, Lake Oswego

To find out if your home is a good candidate for solar power be sure to attend an upcoming workshop and/or sign up for a free home evaluation at www.solarizewllo.org.
