

Jughandle Project Highway 213 - 4 Day Closure March 22-27

The City of Oregon City and ODOT are constructing this project to bring significant traffic and safety improvements to one of the state's most congested corridors

and I-205's most traveled interchanges. The intersection of Hwy 213/Washington Street/Clackamas River Drive will be rebuilt and Washington Street realigned to pass under Hwy 213 just south of the existing railroad bridge. Traffic to and from Washington Street (and Clackamas River Drive) off of Hwy 213 will be served by a "jughandle" configuration, which will eliminate the need for left-turns and improve connections to and from Hwy 213. The project includes improvements on Redland Road for an exclusive eastbound right turn lane at its intersection with Hwy 213.

Please visit and learn more about the

4-Day (104-Hour) closure of all travel lanes

on Highway 213 near I-205 scheduled

begins Thursday, March 22, 2012, at 8:00 p.m.

ends by Tuesday, March 27, 2012 at 4:00 a.m.

through the project web site jughandleproject.com
