

GIS Data Portal

THE GIS DATA PORTAL IS FOR DOWNLOADING RAW SHAPE FILES FOR USE IN SPECIALIZED GIS SOFTWARE APPLICATIONS (ARCVIEW, AUTOCAD, ETC.).

If you would like to print a map on-line, follow this link instead:
<http://westlinnoregon.gov/maps/west-linn-interactive-mapping>

There are 2 locations where you can download raw shape files for use in specialized mapping softwares, click the links below:

Metro's New RLIS Discovery Site, Portland Region-Wide GIS Data:

[Click here to enter the Metro RLIS GIS Data Discovery Site](#)

Clackamas County GIS:

[Click here to enter the Clackamas County GIS Data Portal](#)

Information about the Clackamas County GIS Data Portal:

The GIS Data Portal is provided by Clackamas County GIS. Download County-wide GIS data in ESRI shape file format at no charge. Use of the shape files is governed by the GIS Data Licensing Agreement on the Portal website. Raw data file downloads include the West Linn area which is in Clackamas County, Oregon. You must provide your own GIS software to create various maps. Data available as of 2010 includes: city boundaries, streams, streets, USGS contours, and more. Create a user account by following the link above and click on the big, green "Register" button. Please check back frequently for periodic updates and as new data becomes available.

Additionally, raw GIS data is also available from:

[Oregon State GIS Spatial Data Library](#)

[Download LiDAR data, surface model](#)

GIS Data Portal

Published on City of West Linn Oregon Official Website (<http://westlinnoregon.gov>)

Contact the City's [GIS Coordinator](#) directly for detailed West Linn specific geographic data.
