

## Parks Maintenance

The goal of Park Maintenance and Operations is to provide safe and attractive facilities for our citizens and visitors to use and enjoy. Through the efforts of a well-planned maintenance program, we are able to provide these services effectively and efficiently.

Our maintenance schedules and procedures are based on the standards and frequencies our citizens have come to expect, and are the result of years of developing a maintenance management system specific to West Linn parks and facilities. A recent citizen satisfaction survey ranked park maintenance very high.

During the year our Park's Maintenance staff work cooperatively with numerous volunteer groups, youth sports organizations, Neighborhood Associations, and many other local groups. Through these cooperative efforts our maintenance crews are able to establish ongoing relationships and digest valuable input and ideas from our community.

If you have concerns, input or other questions about our park maintenance program feel free to contact the Parks and Recreation Department at 503-557-4700.
