

The meeting was called to order at 7:15 in the Bolton Primary School cafeteria.

Roberta Schwarz came to tell us of the progress toward the preservation of the Oak Savannah above the I-205. We voted in support of this effort.

The February minutes were approved as printed.

Kevin Bryck, Robinwood Neighborhood Association President came to present a proposal to form a HWY 43 Citizen Task Force to provide input to the city on this long neglected issue. This will be the fourth plan Bolton Neighborhood will have participated in with very little results visible. (1. BNA had a plan prior to our Neighborhood Plan. 2. This was then included in our Neighborhood Plan. 3. Grant money, etc. was spent on a city plan-- not a lot of citizens or agencies were included in this process. 4. We would like to give it another shot!) Very little funding should be required for this effort as we need not begin at square one again. We voted to support this effort.
