

Update from the City Manager

On Tuesday, September 30, 2008, the City of West Linn and the West Linn-Wilsonville School District had a productive meeting about city-school district relations, with a focused discussion about the future issues and challenges that the entities will continue to work together on in the coming months. The following topics were discussed:

- The success of a recent City of West Linn/West Linn High School mentoring project where the high school students planned, designed, and constructed a fire pit and benches at Fields Bridge Park.
- The value of library curriculum tie-ins between West Linn schools and the West Linn Public Library.
- Ensuring that West Linn residents have a strong presence in future communications, planning, and decision-making related to the Sunset School.
- Ensuring that the “Safe Routes to Schools” principles are included in the City’s Transportation System Plan update.
- The potential remodels of Bolton and Cedaroak Primary schools (pending passage of the school’s bond measure) which will be designed to enhance the livability of the surrounding neighborhoods by offering greater connectivity between the Bolton School and Hammerle Park; and potentially providing public restrooms for visitors to the Cedaroak playground during the summer months.
- The planned construction of a new elementary school at the Erickson site off of Rosemont Road was also discussed, and it was determined that the property will need to be annexed into the City of West Linn if the school district’s bond measure passes and the school construction is able to continue as planned.

The City of West Linn and the West Linn-Wilsonville School District will continue to work together on these issues and other issues of importance to West Linn families. Please see the City’s web site at <http://westlinnoregon.gov> or the District’s web site at <http://www.wlww.k12.or.us/> for more information about future plans, meetings, and issues.
