1. General Information

1.1. Overview

The City of West Linn provides a full range of municipal services to the community, which includes police protection, traffic control and improvement, street maintenance and improvement, water, sewer, and surface water management services, planning and zoning regulation, building inspection and regulation, parks and recreational activities, and community library service. This Master Fees Schedule consolidates all City fees and charges, adopted by City Council resolution, for the various services that the City provides. Typically, it is updated annually and reflects all fee resolutions passed by Council during the year. For easy reference, the current Master Fees Schedule booklet is available online at: www.ci.west-linn.or.us.

1.2. Fee Variance & Waiver Statement

Based upon an unusual circumstance or event, past practices, demonstrated hardship, or public benefit, the City Manager is authorized to waive or decrease a fee(s) or charge(s) in a particular matter or establish a fee not yet authorized in this schedule. When a new fee is established by the City Manager it shall be incorporated into this resolution, and it shall be included and specified during the next update to this document. It shall be communicated to Council in writing to allow opportunity for comment. The request for a waiver or reduction may be in writing. If the City Manager or his designee agrees to said waiver or reduction, he/she may inform the City Council, in writing, of the request and his/her decision, except in minor matters (defined as waivers or reductions valued at \$500 or less).

1.3. Statement of Hourly Rates

Unless otherwise specified, the City employee hourly rate shall be calculated as three times the employee's hourly pay rate, to the nearest \$5 increment. This calculation shall be used to recover costs for those services billed on an hourly basis, including but not limited to professional services such as planning, engineering, public works, utility, financial, legal, and police services. The use of a multiplier of three is intended to recover all overhead, training, benefits, and other costs associated with a City employee's time. Any work performed during overtime hours shall be billed the calculated hourly rate multiplied by 125 percent. A schedule of hourly billing rates will be maintained. The City Manager or Department Directors are authorized to adjust calculated billings to reflect the impact of unusual circumstances or situations.

- A multi-family housing unit is defined as a residential structure with more than one dwelling unit in the same building with multiple dwelling units sharing one water meter. Because multi-family housing units cannot define vacancy based on the absence of water service, a multi-family rate can apply to eligible multi-family housing units. 6.10. Street Trees

New Subdivisions

- The developer shall pay cost of street trees at the time public improvements are bonded prior to final plat approval. The fee shall be based on the number of trees required multiplied by \$175.00 (the cost per tree) unless the developer chooses Option 2. This fee includes the purchase cost of the tree, labor and equipment for original placement, regular maintenance following the City's schedule for two years, and a two-year replacement warranty.
- At the developer's option, the street tree plan may be executed privately. In this case, a fee of \$75 per tree shall be charged prior to final plat approval. If this option is exercised, trees shall be planted prior to an occupancy permit being issued. This fee shall include permit and inspection fees, two-year maintenance fee, and a two-year replacement warranty.
- All trees planted by the developer shall conform to types, grade, size, and planting specifications as specified by the City's street tree plan.
- In special cases, a developer may choose to plant a larger tree than standard, or plant outside the normal planting periods, in which instance an additional fee may be agreed upon with the City to cover the costs of special order trees.

Existing Subdivisions/Older established Areas

- Landowners in existing subdivisions or other established areas might choose to initiate a beautification project by planting street trees. In which case, fees will be based on all or any combination of: permit and inspection fees, the actual cost of the tree, the actual cost of original placement, the projected cost of maintenance, and replacement warranty.
- These fees shall be set and agreed upon prior to a permit being issued.

6.11. Park Maintenance Fees

	Monthly Charge
Single Family Residence	\$9.24
Multi-Family Residence	\$8.78

- For the park maintenance fee, a residence is defined by the presence of any size water meter. The system and structure of fees for parks maintenance can be controlled and or avoided through the vacancy of a residence and turning off water service to the vacant residence. The City Council determines that the park maintenance fees imposed upon residences are not taxes subject to the property tax limitations of Article XI, section 11(b) of the Oregon Constitution.
- A multi-family housing unit is defined as a residential structure with more than one dwelling unit in the same building with multiple dwelling units sharing one water meter. Because multi-family housing units cannot define vacancy based on the absence of water service, a multi-family rate can apply to eligible multi-family housing units. The multi-

family housing rate is discounted based on the city-wide vacancy rate as determined by the City of West Linn Planning Department in effect for one-year as of July 1 of each year.

- Monthly park maintenance charges for parks maintenance to the principal residence of low income citizens as defined in this section shall be as follows: low income citizens shall be charged at one-half the regular rate, for a total fee of \$4.62 per month. Any citizen currently receiving the reduced water service charge for low-income citizens shall automatically receive the reduced parks maintenance charge. Premises to be eligible for the low income citizens park maintenance charge include the principal residence of a person(s) having an annual income(s) that does not exceed the federal poverty low income guidelines (as established by the poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2).), and as adopted by administrative policy for setting the city's low income dollar amounts in effect for one-year as of July 1 of each year.
