No amplified music allowed.

Non profit fees established to assist with offsetting operational costs of facility (janitorial services, supplies and materials and utilities)

[See also Section 3.1 for facility deposit information.]

6.8. Street Trees

New Subdivisions:

Option #1 - The developer shall pay the cost of street trees at the time public improvements are bonded, prior to final plat approval. The fee shall be based on the number of trees required multiplied by \$175 (the cost per tree) unless the developer chooses Option 2. This fee includes the purchase cost of the tree, labor and equipment for original placement, regular maintenance following the City's schedule for two years, and a two-year replacement warranty.

Option #2 - At the developer's option, the street tree plan may be executed privately. In this case, a fee of \$75 per tree shall be charged prior to issuance of a final plat approval. If this option is exercised, trees shall be planted prior to an occupancy permit. This fee shall include permit and inspection fees, two-year maintenance fee, and a two-year replacement warranty.

All trees planted by the developer shall conform to types, grade, size, and planting specifications as specified by the City's street tree plan.

In special cases, a developer may choose to plant a larger tree than standard, or plant outside the normal planting periods, in which instance an additional fee may be agreed upon with the City to cover the costs of special order trees.

Existing Subdivisions/Older established Areas:

Landowners in existing subdivisions or other established areas might choose to initiate a beautification project by planting street trees. In which case, fees will be based on all or any combination of: permit and inspection fees, the actual cost of the tree, the actual cost of original placement, the projected cost of maintenance, and replacement warranty.

These fees shall be set and agreed upon prior to a permit being issued.

6.9. Park Maintenance Fee

	Effective July 1, 2012		Effective July 1, 2013		Effective July 1, 2014	
	Charge per month		Charge per month		Charge per month	
	Residential	Commercial	Residential	Commercial	Residential	Commercial
Single family residence	\$ 11.24	n/a	\$ 11.80	n/a	\$ 12.39	n/a
Multi-family residence	10.67	n/a	11.20	n/a	11.76	n/a

For the park maintenance fee, a residence is defined by the presence of any size water meter. The system and structure of fees for parks maintenance can be controlled through the vacancy of a residence and turning off water service to the vacant residence. The City Council determines that the park maintenance fees imposed upon residences are not taxes subject to the property tax limitations of Article XI, section 11(b) of the Oregon Constitution.

A multi-family housing unit is defined as a residential structure with multiple dwelling units in the same building with that share one water meter. Because multi-family housing units cannot define vacancy based on the absence of water service, a multi-family rate can apply to eligible multi-family housing units. The multi-family housing rate is discounted based on the City-wide vacancy rate as determined by the City of West Linn Planning Department in effect for a one-year period as of July 1 of each fiscal year.

Monthly park maintenance fees to the principal residence of low income citizens as defined in this section shall be as follows: low income citizens shall be charged at one-half the regular rate. Any citizen currently receiving the reduced water service charge for low-income citizens shall automatically receive the reduced roadway maintenance fee. Principal residences occupied by a person(s) having an annual income(s) that does not exceed one hundred eighty-five percent (185%) of the most recently published federal poverty low income guidelines (as established by the poverty guidelines updated periodically in the Federal Register by the U.S. Department of Health and Human Services under the authority of 42 U.S.C. 9902(2).), are eligible for reduced park maintenance fees.
