Suspend a Hold

You can choose to suspend a hold for a certain length of time so that when you get to the top of the hold list, you will wait there until the suspension period is over.

When logged in to Library2Go, click the **Account** button then click **Holds**. Click the **Options** button next to the hold that you want to suspend, then click **Suspend Hold**. On the pop-up screen choose how long you want to suspend the hold for, then click the **Submit** button. Your hold will automatically reactivate after the suspension period is over.

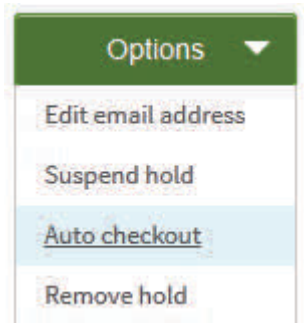

Auto Checkout

When you place a hold on an item, you can choose to have it automatically checked out to you when you reach the top of the hold list.

When placing the hold, make sure that the box is checked for **Automatically borrow this title when it becomes available**.

If you've already placed the hold, go to your Account and then click on Holds. Click the **Options** button next to the hold and choose **Auto checkout**.

Recommended for You

After you sign in, a collection of recommended titles will appear on the homepage. Recommended titles will be available for checkout and are suggested based on titles you currently have checked out or on hold. If you do not have any checkouts or holds, this collection will not appear.
