A. Marylhurst Park

A motion was forwarded at the regular association meeting on August 28th, 2007 proposing that the Neighborhood Association request of the city council to amend the Marylhurst Neighborhood Plan adopted July 9th 2007 and remove language supporting the development of Marylhurst Park as proposed by the city. Seeing as the motion requires an amendment to the Neighborhood Plan, it was determined that proper notification had not been given to take such an action at the August 28th meeting and this special meeting was called.

In addition to the above motion, the neighborhood association was asked by the Planning Commission on August 23rd, 2007 to inform the commission in writing exactly which features would be desired in the park if the current plan before the commission is not to be approved. This communication needs to be sent to the Planning Commission by September 20, 2007.
