1. economic development
2. working with the aquatic/rec center task force
3. the Blue Heron property
4. water infrastructure
5. police station
6. centennial

More info: <http://westlinnoregon.gov/citycouncil/2013-council-priorities>

Discussion: helping each other. Email lists and email accounts were also discussed – how to forward, overcome problems with passwords, and getting mailchimp accounts linked in on the individual NA web pages on the city web.

Discussion: preparing for work session with CC in May and what messages we want to deliver. Jef will prepare a draft for circulation some time prior to the work session. Due to time constraints, there may not be a lot of opportunity for back-and-forth with the draft. In the mean time, if anyone has other thoughts, send by email. Included in the draft will be items reviewed from all of our posted minutes, an overview of what we've accomplished, the active NA definition, stipend recommendation, and a view of which NAs have been participating in NAP.

Motion: recommend to City Council to include a map of the NA boundaries and President contact info in an upcoming utility bill. Motion seconded and passed unanimously.

Meeting adjourned approx 7:50
