Hooked On Phonics ... Reading Enrichment

Ages 3-7

Hooked on Phonics (HOP) is an extremely visual tool that allows you to measure your child's learning progress. The HOP program is designed to help your child learn the letter names and sounds, combine the letter sounds to read words, practice reading those words in stories and books, understand the meaning of stories and books, and enjoy learning to read. The program includes all related materials and personal attention of a tutorial instructor. Min 1 Max 5

SKILLZ® Summer School Of... Camps

Ages 3.5-8

School is out but the fun is in! Opportunities to learn through play and physical activity, is an essential element of a child's academic performance because it helps energize them and get them ready to learn more effectively. Children participate in developmentally appropriate activities that will help increase their physical competence, self-esteem and joy of being physically active. Checkout www.playboutique.com for theme details. Min 1 Max 30

Presented by Once Upon A Horse

Directions to Wilsonville area stable provided upon registration.

Mom And Me And Pony Makes Three

Ages 2-5 with parents or guardians

An introductory class for young children 2-5 who are curious about these large and lovely animals. We will begin with the story "Once Upon A Horse" and that will outline our activities for the day, which will include brushing, riding and feeding carrots. We learn how to sit "tall in saddle" safe as can be and discover a cowgirl/cowboy is ME! Parents and or grandparents accompany the children, please bring your cameras and closed toed shoes for your equine adventure. Min 3 Max 6

Playful Inventors Workshop

Ages 6-9

Developed by the MIT Media Lab's Lifelong Kindergarten Group, the PicoCricket Kit is designed for making artistic creations with lights, sound, music, and motion. It is a tiny computer that can make things spin, light up, and play music. You can plug lights, motors, sensors, and other devices into a PicoCricket, then program them to react, interact, and communicate. This weeklong camp will combine technology and artistic creativity to allow campers to create playful inventions to amaze their friends and family. The PicoCricket is easy to learn, fun to explore, and sets no limits on the creative process. Projects will include a Magic Lantern, a Dancing Sculpture, a Dream House, a Programmable Pet, and creative musical instruments like a Play-Doh Piano and an Electric Banana. Min 5/Max 15

FEE: IC \$179 / OC \$184

Youth Programs

Introduction to Computer Animation with Scratch

Continued from previous page

the most part, these programs are a one-way street: you can only browse and click what others have created; you can't design and create your own. This course will teach students how to design and program their own animated clips or games by combining graphics, photos, music, and sound into interactive creations. During this week long camp, campers will learn how to create characters that dance, sing, and interact with one another, create images that whirl, spin, and animate in response to movements of the mouse, and integrate images with sound effects and music clips to create an interactive birthday card for

a friend, or an interactive report for school. The programming platform, Scratch, was designed by researchers at the MIT Media Lab Lifelong Kindergarten Group, which means that, in addition to having fun, kids will gain skills that will be critical to success in the future: thinking creatively, communicating clearly, analyzing systematically, collaborating effectively, designing iteratively and learning continuously. Min 5/Max 15

FEE: IC \$179 / OC \$184

Gateway to Engineering for Girls

Ages 8-11
Gateway to Engineering for Girls is a hands-on, inquiry based day camp for girls in grades 3-5 to expose them to the possibilities offered through engineering and technology. The focus of the program is in making technology, math, and science FUN, while providing them with confidence in their abilities. The camp is designed to provide a safe environment for girls to interact

with and try out technology and engineering. Each day focuses on a theme relevant to girls' lives to demonstrate how big of an impact engineering and technology plays on their everyday lives. Daily themes include Theme Park Engineering, Sports Engineering, Engineering the City, Engineering in Fashion and Cosmetics, Toy and Game Engineering, Computer Engineering and more. Engineering concepts covered include fundamentals from the following disciplines: Electrical Engineering, Mechanical Engineering, Civil Engineering, Chemical Engineering, and Biomechanical Engineering. Campers will bring home one-of-a-kind projects every day.

Min 5/Max 20
FEE: IC \$159 / OC \$164
6045.301 9:00 am - 12:00 pm 7/14 - 7/18
Rosemont Ridge, Room A-103

Camp BizKID\$

Ages 9-12
Have you ever thought of starting your own business? Or have you invented something that you are sure that people would buy, given the opportunity?

Camp BizKID\$ is designed to show kid-preneurs how to make, manage, and save money, while inspiring them to pursue their dreams. The weeklong daycamp will provide kids with the knowledge and tools to succeed in a global economy. Throughout the week, kid-preneurs will participate in business role-playing, financial transactions, and planning activities designed to help them understand the role of money in our society. At the end of the camp, kids will have the tools necessary to start an entrepreneurial venture of their own. The BizKID\$ curriculum is focused on social studies, mathematics, reading and writing skills in an entertaining and engaging format. Campers will learn about the importance of planning, goal-setting, risk-taking and decision-making when dealing with money. The program will also focus on the skills necessary to become a successful entrepreneur. Min 5/Max 20
FEE: IC \$159 / OC \$164

Gizmos and Gadgets

Ages 11-14

Do you like to build toys or invent new gadgets? Or do you like to tinker with things just to see how they work? Would you like to learn how to build cool creations from scraps of junk around the house or stuff you find at your local hardware or office supply store? This week long camp will provide kids with the opportunity to create amazing inventions and useful gadgets from things that they use and see everyday. Projects will include a vibrating insect robot, an electronic plant watering watcher, an electronic dice, a solar powered sun-catcher, and much more, all from items found in the average garage or storage shed. Campers will be given the skills and tools needed to continue to foster their inventive spirit and encourage them to look at everyday junk as useful. Campers will bring home all inventions from the week. Min 5/Max 20

Extreme Engineering Challenge

Ages 11-13

Have you ever wanted to race a solar-powered vehicle? Do you think you could create a safe race car? Ever wondered how a hot-air balloon gets off the ground and stays in the air? During this camp, kids will explore various transportation methods through hands-on projects such as a Mag-Lev (magnetic levitation) Vehicles, Solar Cars, Hot-Air Balloons, and Fuel-powered Rockets. During each project, campers focus on how to design the project to best meet an objective,

using theories of physics and motion. The camp experience culminates with the Extreme Engineering Challenge where campers enter their designs in an Extreme Engineering Olympic type event, complete with awards for engineering, performance, creativity, communication, and effort. All engineer campers are winners! The following concepts will be explored and utilized in the design of each project: Physics, Speed, Acceleration, Forces, Motion, Inertia, and Pressure. Min 5/Max 20

FEE: IC \$159 / OC \$164

Bolton Elementary Cafeteria

Space Camp

We will explore the topic of space while working in different mediums. We will draw space ships and aliens while completing our drawing with color pencils, sharpies and markers. On the last day we will complete one large space piece! Min 6 Max 10

6109.301 M, T, W, Th 10:00 am - Noon 7/7-7/10

Down on the Farm Camp

We will learn to draw animals that live on the farm! Our farm friends will consist of sheep, cows, pigs and others. We will draw each of our farm animals in their own scene. On our final day, we will draw a large scene of a farm, with our farm animals and some farm equipment in it! Pencils, colored pencils and markers will be used. Min 6 Max 15

6110.301 M, T, W, Th 1:00-3:00 pm 7/7-7/10

Transportation Camp

This camp is your chance to learn to draw all the different modes of transportation we use to get around, maybe even some we haven't used! Cars, trucks, airplanes, helicopters and more will fill our drawings. We will complete our last day with one large scene including as many roads, bridges and vehicles as we can draw. Pencils, color pencils and markers will be used. Min 6 Max 15

6111.301 M, T, W, Th 10:00 am-Noon 7/14-7/17

Summer Art Camp

This is the MOST POPULAR Young Rembrandts camp. Children will be exposed to three different media all in one camp! We will emphasize drawing skills by completing a large drawing with markers. We will learn cartooning techniques while being introduced to some fun new characters. We will learn color pencil techniques as we complete a large piece. The step-by-step Young Rembrandts teaching method insures success and fun with all media! Min 6 Max 15

6112.301 M, T, W, Th 1:00-3:00 pm 7/14-7/17

Under the Sea Camp

What a great opportunity to draw original Young Rembrandts' fish characters! Our fish characters will consist of sharks, lobsters, mermaids and others. We will place each of our fish characters in their own scene. On our final day, we will draw a large scene of the coral reef environment, with all of our new fish friends in it! Pencils, colored pencils and markers will be used. Min 6 Max 15

6113.301 M, T, W, Th 1:00-3:00 pm 7/21-7/24

Superhero Camp

Pow! Bang! Wow! Now you can learn to draw your own comic book superhero. Each day we will complete several drawings while we explore a variety of characters. We will learn to draw the basic muscular superhero body and adapt it to the character of our choice. We will learn to draw action and movement while we complete the scenes around our superheroes, using pencils, markers and sharpies. Our collection of drawings will be impressive! Min 6 Max 15

6114.301 M, T, W, Th 10:00 am-Noon 7/21-7/24

Pirate Camp

Ahoy mates! Join us as we explore the world of pirates with new drawing adventures! Pirates, treasure maps, sunken treasures, parrots, a grand pirate ship and more inspire us as we draw, using cartoon and realistic drawing techniques. Students will complete several drawings each day using the unique Young Rembrandts drawing method. Pencils, color pencils, sharpies and markers will be used. Min 6 Max 10

6115.301 M, T, W, Th 10:00 am-Noon 7/28-7/31

Teddy Bear Camp

Teddy bears galore! Join the craze for personalized teddy bears by drawing your favorite bear in a variety of outfits. Enjoy four fun filled days full of drawing an assortment of bears in a wardrobe of costume choices and settings. Learn fur techniques, different clothing styles and the fun of accessorizing! Media includes: pencils, color pencils, sharpies and markers. Min 6 Max 10

6116.301 M, T, W, Th 1:00-3:00 pm 7/28-7/31
