

CITY OF
West Linn

Memorandum

TO: Chris Jordan, City Manager

FROM: Tom Soppe, Associate Planner

DATE: June 24, 2010

SUBJECT: Clarification of applicants' request, and new correspondence, for MISC-10-08 Temporary Use Permit for Robinwood Station

Conversations between staff and applicant Randall Fastabend of Friends of Robinwood Station have clarified that the applicants are requesting use of the entire main building on the site, not just the administration/meeting area within the building.

Also, attached is the correspondence received from a citizen since the staff report was published.

June 16-18

City of West Linn,

This is in response to Fund of Robinwood Station, for a 12 month temporary permit to use the Robinwood Fire station as a neighborhood center. I feel this would be a very worthy and worthwhile use of the building. I live almost directly across the street. I recommend approval of this permit. We could definitely use a community building here and there's parking available there.

Sincerely,
Eleanora Larson
