Issued: July 6, 2011
Issued by: Dennis E. Wright, PE
City Engineer

Item No. 1 – SECTION 2 BACKGROUND: Replace Paragraph 3, pg 7 of 15 with the following:

The proposed pump station and pressure zone intertie is to provide an additional redundant supply to the Rosemont zone that has significant storage deficiencies. Anticipated project scope includes, but is not limited to the following:

- Pump station with three (3) VFD pumps totaling 1,800 GP with backup generator capability
- Approximately:
 - Alternate 1: 1,200 lineal feet of 12-inch restrained Ductile Iron (DI) pipe with approximately 400 lineal feet of its length being bored*
 - Alternate 2: 3,000 lineal feet of 12-inch restrained Ductile Iron (DI) pipe*
- Approximately 850 lineal feet of 8-inch DI pipe
- Fencing of the 1.0 acre pump station and reservoir property
- Site design shall provide for future reservoir additional reservoir location on the site, minimizing tree impacts, and screening/landscaping.
