Safe Routes to Schools

Justin Loveland, PE

Senior Project Engineer – City of West Linn

A Little About Me

- ◆ Graduated from Portland State University (Go Vikings!)
- ◆ Worked for a consulting firm out of college
- ◆ The last place I worked was at The Oregon Department of Transportation (ODOT)
- ◆ I have been working at The City of West Linn since April 2022

The goal of this presentation

- ✔ Provide a short background on Safe Routes to Schools
- ✔ Go over projects identified by the consultant for the Bolton Neighborhood
- ✔ Notify the Bolton Neighborhood on what projects have been completed to date.
- ✔ Notify the public on next steps
- ✔ Answer Questions

Background

- What is a Safe Route to School?
- What is a Walking Boundary?
- Study performed by DKS & Associates (a consultant) – 2019
- Goals
- Timeline

Projects identified by the consultant

Legend

- Bolton Primary Safe Route to School
- - - Recommended Sidewalk Infill
- Recommended Pedestrian Crossing Improvements
- Recommended Crosswalk
- - - Recommended Off-Road Path
- # Project Number

Existing Conditions

- Existing Sidewalk
- Existing Crosswalk
- Crossing Sign
- ▲ School Speed Limit Sign
- - - Walking Boundary for Bolton Primary School

 No Scale

Project #	Roadway	Project Type	Project Description
1	Holmes Street	Signing and Striping	add school crossing signs on west leg and crosswalk striping on west and north legs
2	Perrin Street	Multi-use path installation	install asphalt path through Bolton Park off Holmes Street to serve houses east of school
3	Robert Moore Street	Sidewalk Installation	install sidewalk on north side
4	Perrin Street	Sidewalk Installation	install sidewalk on south side
5	Buck Street	Curb Ramp Installation	no existing curb ramps at intersection
6	Buck Street	Curb Ramp Installation	ADA curb ramps exist on SW corner
7	Buck Street	Curb Ramp Installation	ramp upgrade needed on NW and SW corner - currently useable
8	Willamette Drive	Ped Crossing Improvements	install pedestrian refuge island, location to be determined through further studying
9	Various	Signing and Striping	replace existing school speed limit signs with flashers

Projects Completed to date

Project #	Roadway	From	To	Project Type	Project Description
1	Holmes Street	Buck Street		Signing and Striping	add school crossing signs on west leg and crosswalk striping on west and north legs
2	Perrin Street	Lewis Street	Bolton Primary	Multi-use path installation	install asphalt path through Bolton Park off Holmes Street to serve houses east of school
3	Robert Moore Street	Bolton Street	Lewis Street	Sidewalk Installation	install sidewalk on north side
4	Perrin Street	Lewis Street	end of Perrin Street	Sidewalk Installation	install sidewalk on south side
5	Buck Street	Gear Street		Curb Ramp Installation	no existing curb ramps at intersection
6	Buck Street	Failing Street		Curb Ramp Installation	ADA curb ramps exist on SW corner
7	Buck Street	Elliott Street		Curb Ramp Installation	ramp upgrade needed on NW and SW corner - currently useable
8	Willamette Drive	Holmes Street	Holmes Street	Ped Crossing Improvements	install pedestrian refuge island, location to be determined through further studying
9	Various			Signing and Striping	replace existing school speed limit signs with flashers

Projects Completed to date

At Holmes Street and Buck Street, facing north (10/2022)

Next steps

Project #	Roadway	From	To	Project Type	Project Description
1	Holmes Street	Buck Street		Signing and Striping	add school crossing signs on west leg and crosswalk striping on west and north legs
