City Council meeting for 29 January. YAC members strongly encouraged to attend

Next YAC meeting to be 17 January 2017

Rory Biastolofsky had the idea to mark parking spaces in the neighborhood around the school and have every other space permit parking only, with the remaining spaces being open. Marking of spaces would be required.

Caden claims that his friend suggested giving out a limited number of permits to students in the existing permit-parking-only area

Ms F offers several ideas for YAC to start to discuss

Options include: keep the permit-parking-only ordinance, repeal it, allow parking in every other spot/curb, allow free parking on one side of the street, limited permits given to students, changing parking hours.

Evan will check to see where the school's revenue from parking spaces goes

Vote on whether or not to continue working on the parking problem. Unanimous for continuation.

Advay suggests trying switching between options twice a year

Caitlin claims that people probably wouldn't like it

Ireland says that it wouldn't be confusing with proper signage

Ms F will find number of homes in area and number of parking spots on one side, and send the resulting data to us

YAC might support the library for fundraising

Decision to secure/create ads for drug dropoff event
