

CITY OF
**West
Linn**

Executive Summary

We are pleased to offer this financial report of City operations for your review. This report covers the first quarter of the fiscal year ended September 30, 2010.

QUARTERLY HIGHLIGHTS

This first quarter financial report summarizes the financial results for the fiscal year ended September 30, 2010 and highlights certain topics of interest.

Continuous Improvement

As all of us continuously review the format, delivery, and presentation of financial information, with this quarter's financial report we have revised our quarterly report format even further. Where previously reports used a "% of budget" field in comparing Budget data with Actual results, we are now using a "variance" column quantifying the actual dollar amount of any differences. The second change that we made is adding a "Flexible Budget" column that breaks down the annualized budget amounts to better reflect the report period and the seasonal or uneven flow of certain revenues and expenditures.

This new "Flexible Budget" column will remain fluid as we advance through the fiscal year, and therefore, we have also included the full fiscal year budget amounts, *flagged for informational purposes*, off to the right. These additional columns allow more detail, but by changing the layout to landscape, detail review should not be too cumbersome.

We thank you for your feedback and agree that these changes provide improved analysis of any budget variances in the period that we are examining. Let us know your impressions on this format change as we always appreciate your feedback.

Budget to Actual Financial Results

The figures following this executive summary report the City's financial activity through the fifth quarter of the 2010-2011 biennium. Even though our budget period follows the State's budget biennium period, we still provide fiscal year data in our reports. Also, keep in mind that the 2010 results are pre-audited figures as the audit is typically completed in December after the auditors finish up their field work and testing.

In a review of the City's revenues, particularly the summaries on pages 5 and 6, I note that property tax revenues for FY10 have come in right as projected. State gas taxes are about \$100,000 under FY10 projections and have actually decreased from the prior year, and water revenues are about \$200,000 under FY10 projections due to such a wet May and June.

In the area of property tax revenues, although market values have dropped over the last couple of years, the effect of Measure 50 on property taxes has actually provided a cushion to the City. Since Measure 50, our taxes are now based upon lower Assessed Values (and indexed by 3% per year since 1995-96) instead of Market Values, which has created almost a 50% difference between to the two sets of values. Although Market Values have declined, they have not

declined by this 50% gap which would then affect Assessed Values and subsequently property tax revenues. Accordingly, the City's property tax revenues (translating into about 13% of the property taxes that you pay every November), have experienced a fairly steady 3% annual growth in the past and continue to be accurately projected going forward.

In the Building Inspection Fund (page 15), you will note that the FY10 revenues have significantly improved and the \$120,000 payoff of their bank note was completed in FY10. With our previous budget cuts in this area, coupled with the turn-around in building revenues, this Fund's projected deficit is no longer.

In the Street Fund (page 22), you will note decreasing gas tax revenues from the State during the last three years. Also, the Blankenship project grant in the amount of \$146,000 is reflected in intergovernmental grant revenues. This amount represents half of the Blankenship project grant with the other half due to be received next quarter. The remaining \$900,000 in projected grant monies relate to the Salamo project. This project was an ODOT-managed project as opposed to a City-managed project, meaning that ODOT's financials will be reflecting the grant revenue and the corresponding project expenses.

On the expense side, overall personnel costs continue to be the City's largest expense item. Best seen in the City-wide summary (page 8), overall personnel costs have decreased in FY10 due to decreasing PERS rates and overtime. Going forward, personnel costs will continue to be our biggest challenge. Particularly with PERS rates, which are scheduled to increase every two years. As you may recall, this is one of the reasons why the City follows the State's two-year budget methodology as it helps to plan for these PERS rate increases. With the next biennium, starting July 1, 2011, PERS has announced rate increases, as high as 8% of payroll, across the State to cover their 2008 investment losses (reflecting a 50% increase in the annual PERS expenses for many agencies). Stay tuned for news on this front.

Bond Refunding Results in Significant Interest Savings

In September, Finance completed the refunding of \$3 million Series 2000 general obligation bonds and \$2.7 million Series 2000 full faith and credit obligation bonds. These two refundings resulted in a combined economic gain of \$978,741 and a reduction of \$1,088,165 in future debt service payments. During this refunding process, the City received a credit upgrade from Standard and Poor's Rating Services to the AA level (see below for details) and Moody's Investors Service reaffirmed the City's Aa2 credit rating as upgraded from the Aa3 level back in May 2010. After this refunding, the overall interest rates were reduced to 2.09% which, on the general obligation portion of the refunding, results in a direct reduction in the property tax rates for our citizens.

City Receives Another Credit Rating Upgrade

Standard & Poor's Rating Services raised the City's credit rating on its General Obligation (GO) and Full Faith and Credit (FFCO) bonds one level from AA- to AA in September 2010. As part of their analysis, unqualified audit opinions, financial policies related to fund balance requirements, and timely financial reporting were cited as key financial indicators that aided

the credit boost. In addition, S&P specifically highlighted the City's use of five-year financial forecasting and quarterly financial reporting as key elements of strong financial management.

New Water Rate Proposals Heading for November 2, 2010 Election

Water is our most precious commodity and adequate water system infrastructure is critical in continuing to provide quality water service to all residents of West Linn. The City Charter provides for city rates "not to exceed 5 percent," but the Utility Advisory Board has recommended that rates increase more than 5 percent to fund the \$21 million of water infrastructure projects listed in the Water Master Plan. Accordingly, the City Council has placed a proposal on the upcoming ballot asking voters to consider increased water rates to fund \$21 million in necessary water system infrastructure projects.

This water rate increase proposal also includes revising the water rate structure by reducing the base rate to \$10.06 per residence, per month, and applying a usage charge for every unit of water used. The proposed water rate structure eliminates the 7 base units of water included in the current base rate of \$15.27. For more information on this topic, see:

<http://westlinnoregon.gov/water-rates>.

Reminder that Citizens can now pay their Utility Bill Online

You may now make your monthly Utility Bill payments on-line via credit card using the City's new online payment program from the convenience and security of your home computer. You can also make a payment by calling 1-800-701-8560, 24 hours a day, 7 days a week (a "live" person is available if you call between 8am to 6pm EST). Of course, the regular "non-online" ways of making payments are still available. This new online service is simply one additional way to make payments for your convenience.

We value your trust and promise to ensure fiscal integrity in all that we do. As you review this quarterly report, I welcome your questions, comments, and any suggestions you may have. As always, the best way to contact me is by email at: rseals@westlinnoregon.gov.

Best regards,

Richard Seals, CPA CMA CFM
Finance Director, City of West Linn

12 October 2010

¹ This variance reflects the continuing trend of declining gas tax allocations received from the State.

² The other half of the Blankenship project grant will be received next quarter. ODOT will be reporting the remaining budgeted grant monies for the Salamo Road project as they ended up being the project manager.
