# Wireless Printing (Mac OS X)

---

West Linn Public Library

# Wireless Printing

- Read the disclaimer, then click the ‘Mac Users’ software link.

## Wireless Printing

If you bring your laptop to the library you can now print directly from your computer to our public computers. Please note that this only works when you are at the library and connected to our wi-fi network. You will also need a library card.

**Disclaimer:** The West Linn Public Library is not responsible for any problems associated with the download or use of the wireless printing software.

### Windows Users

1. Download the [software](#).
2. Follow [these instructions](#).

### Mac Users

1. Download the [software](#).
2. Follow [these instructions](#).

# Wireless Printing

- The Wireless Printing program will appear in your 'Downloads' stack.

# Wireless Printing

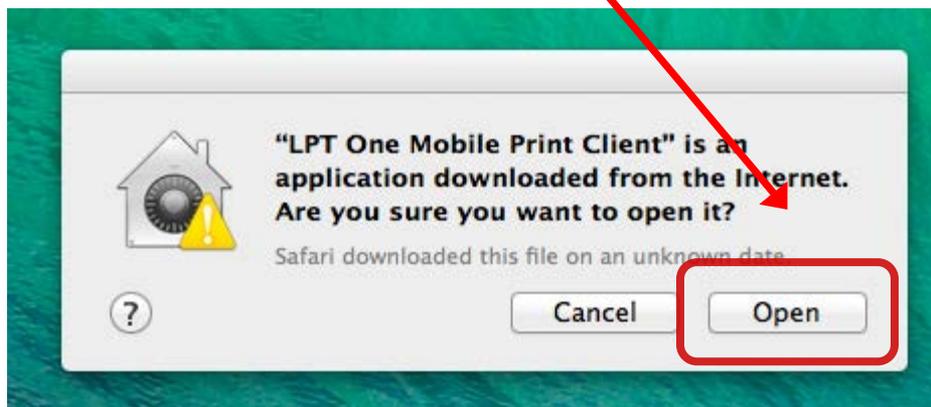

- Click on your 'Downloads' stack, then click on 'LPT One Mobile Print Client'

# Wireless Printing

- If asked, click 'Open'.

# Wireless Printing

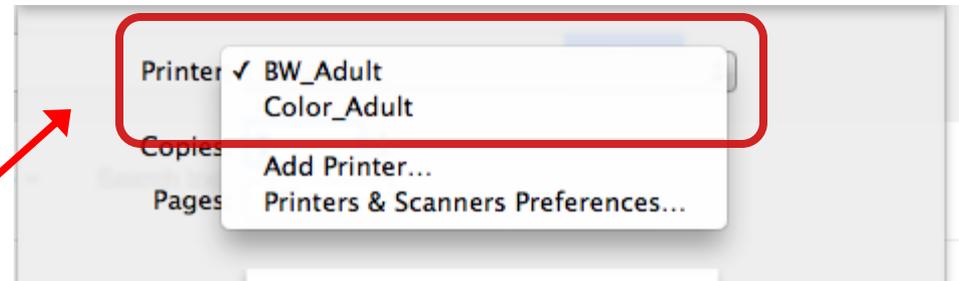

- In a few moments, the Wireless Printing program will start (look for the program icon in your dock).

# Wireless Printing

- Return to your document and select 'Print'.
- When the print dialog appears, you will see two library printers listed, 'BW\_Adult' and 'Color\_Adult'.
- Select the printer you'd like to use, then click 'Print'

# Wireless Printing

- You'll be asked to enter your library card number and PIN (usually the last 4 digits of your phone number).
