# West Linn HB 2001/2003 Project Housing Capacity Analysis and Middle Housing Code Update

Project Advisory Committee Meeting #1 December 8, 2020, 3:00-5:00 pm

- 1. Introductions
- 2. HB 2001 and 2003 Background and Project Overview
- 3. Buildable Lands Inventory
- 4. Housing Needs Projection
- 5. Online Survey (HCA)
- 6. Development Code Update
- 7. Next Steps and Adjourn

# House Bill 2001 (HB 2001) Background

- Passed during the Oregon 2019 State Legislative Session
- Expands housing options in Oregon cities by permitting middle housing in most residential areas
- Metro cities with population over 1,000 and large cities (> 25,000) required to allow middle housing types in all residential zones
- Metro and large cities have two tracks to comply by June 30, 2022:
  - 1. Adopt Housing Options Model Code for Large Cities
  - 2. Adopt minimum compliance standards consistent with OAR 660-046

# House Bill 2003 (HB 2003) Background

- Passed during the Oregon 2019 State Legislative Session
- Requires cities over 10,000 people to conduct a housing capacity analysis (HCA) for future residents every 6 to 8 years
- Directs Oregon Housing and Community Services (OHCS) to conduct a Regional Housing Needs Analysis – forecast of housing need for every income level in each Oregon region for next 20 years
- HB 2003 provided funding for technical assistance grants to DLCD to distribute to cities working to complete their HCA
- Technical assistance schedule runs through June 30, 2021

#### **Project Overview**

- City of West Linn received grant funding from the Department of Land Conservation and Development (DLCD) for technical assistance with completing a Housing Capacity Analysis (HCA)
- City also received a grant for a Middle Housing Development Code Update
- Consulting team for HCA includes Angelo Planning Group (APG) and Johnson Economics
- MIG is the consultant for the Code Update
- Projects must be complete by June of 2021

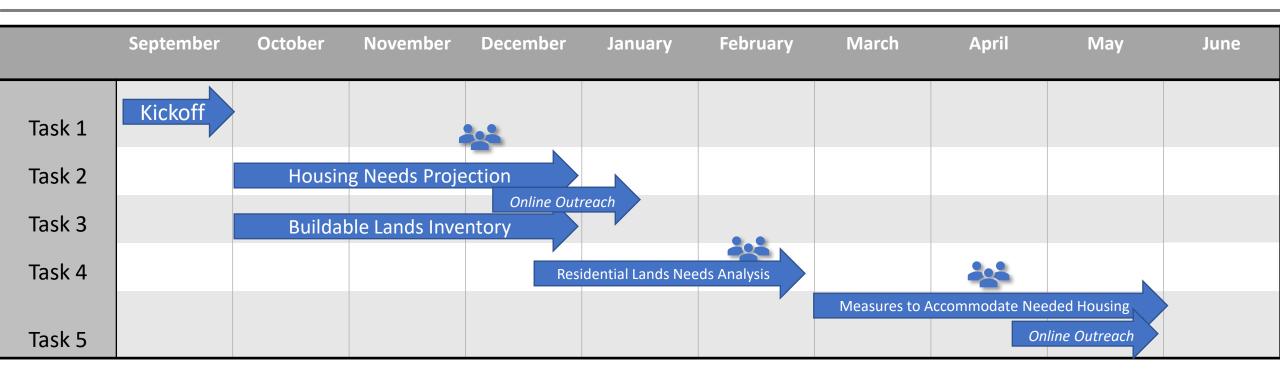

#### Schedule - HCA

## Housing Capacity Analysis Process

#### **Overview of Process**

- Supports future housing-related planning efforts
- Provides info about housing market and factors that will affect future housing demand
- Oregon Statewide Planning Goal 10, Housing requires jurisdictions to plan for a range of housing types at a range of price levels, including:
  - Estimate needed housing for next 20 years and provide land to accommodate
  - Potential policy and zoning changes and other strategies to meet housing needs

#### Methodology

- Assess current housing and demographic conditions
- Assess current and future (20-year) housing needs
- Demographically driven projections
- Population growth forecast (Metro), and local trends forecast
- Identify needs by tenure, price/rent, and unit type

#### **Demographic Trends and Projections (2000 - 2040)**

	2000	2020	Change	2040	Change
Population	22,261	25,995	+3,735 (17%)	27,861	+1,865 (7%)
Households	7,745	9,948	+2,205 (28%)	10,907	+960 (10%)
Housing Units	8,697	10,476	+1,780 (20%)	11,481	+1,005 (10%)

- Metro Forecasted Growth Rate: 0.35%
- Average household size: 2.6 people
- High share of family households (76%)
- Housing vacancy = 5%

#### **Income Trends**

	2010 (Census)	2020 (Projected)	Change
Median Household Income	\$86,600	\$104,000	20%
Per Capita Income	\$41,300	\$52,000	26%

- Median 30% higher than Clackamas County (\$88,500)
- Nearly double the state median (\$56k)
- Income growth has outpaced inflation

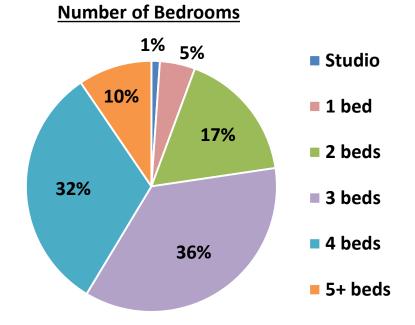

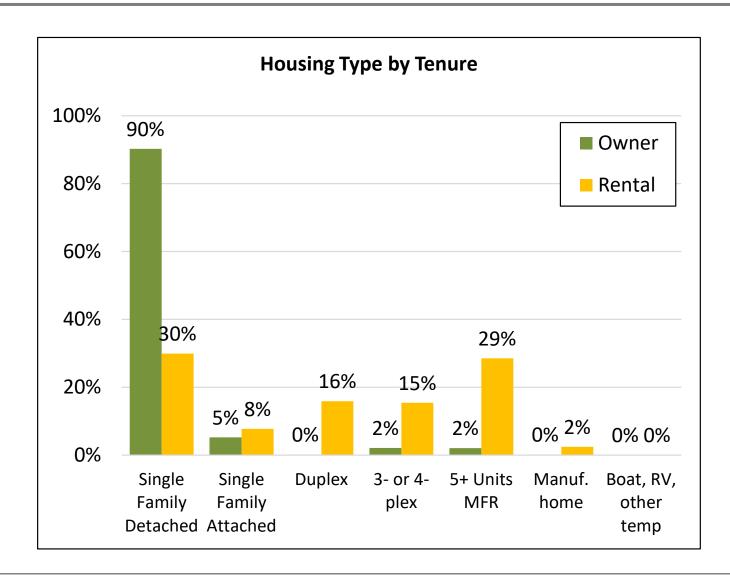

#### **Current Housing Conditions**

- 79% owners; 21% renters
- 90% of owned units = 3+ bedrooms
- 65% of rented units = 2 or fewer

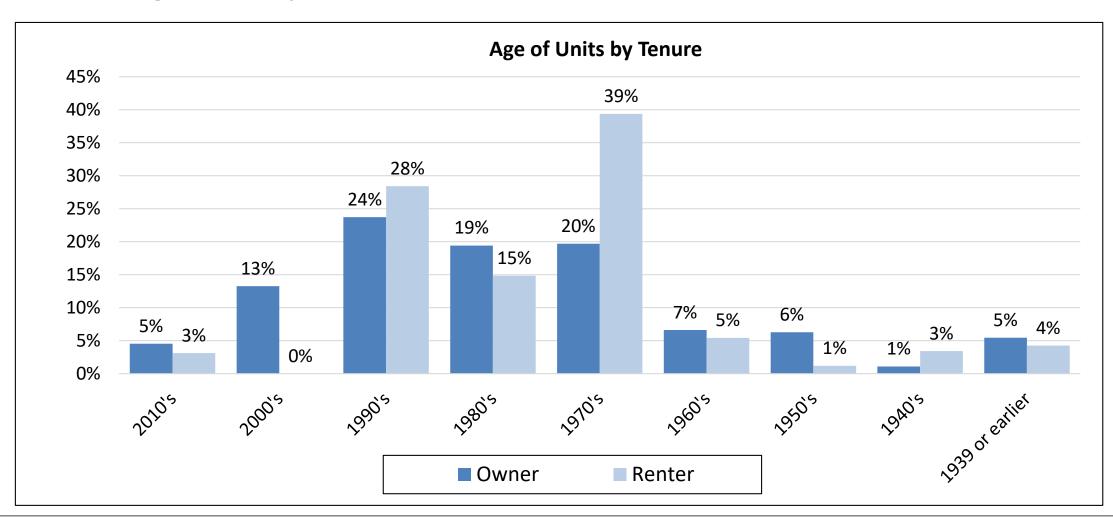

#### **Age of Housing Inventory**

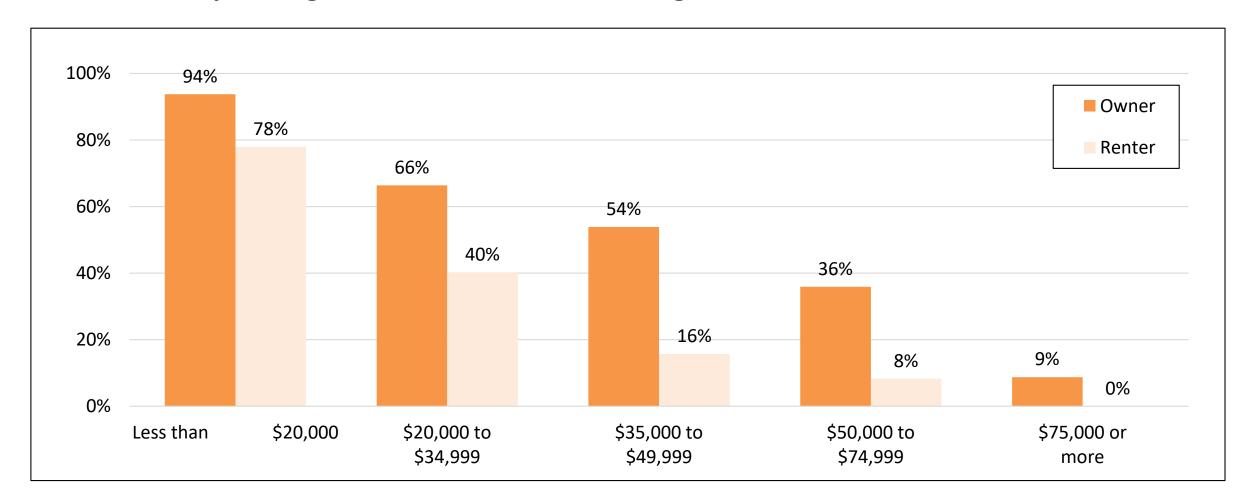

#### **Households Spending More than 30% on Housing**

#### Housing "Affordability"

Income Range	Current Units "Affordable"
Less than \$15,000 \$15,000 - \$24,999 \$25,000 - \$34,999 \$35,000 - \$49,999 \$50,000 - \$74,999 \$75,000 - \$99,999 \$100,000 - \$124,999 \$125,000 - \$149,999 \$150,000 - \$199,999 \$200,000+	1% 2% 4% 12% 14% 15% 11% 19%
	0% 5% 10% 15% 20% 25%

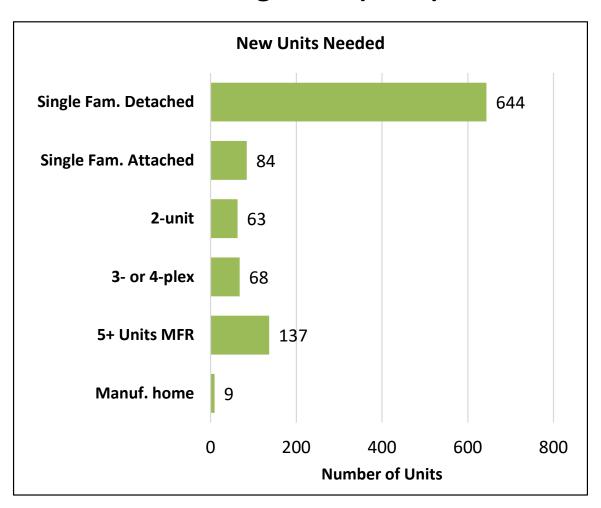

- Median sale price: \$585k
- 46% of sales > \$600k
- 10% of sales < \$300k

#### **Forecasted Housing Need (2040)**

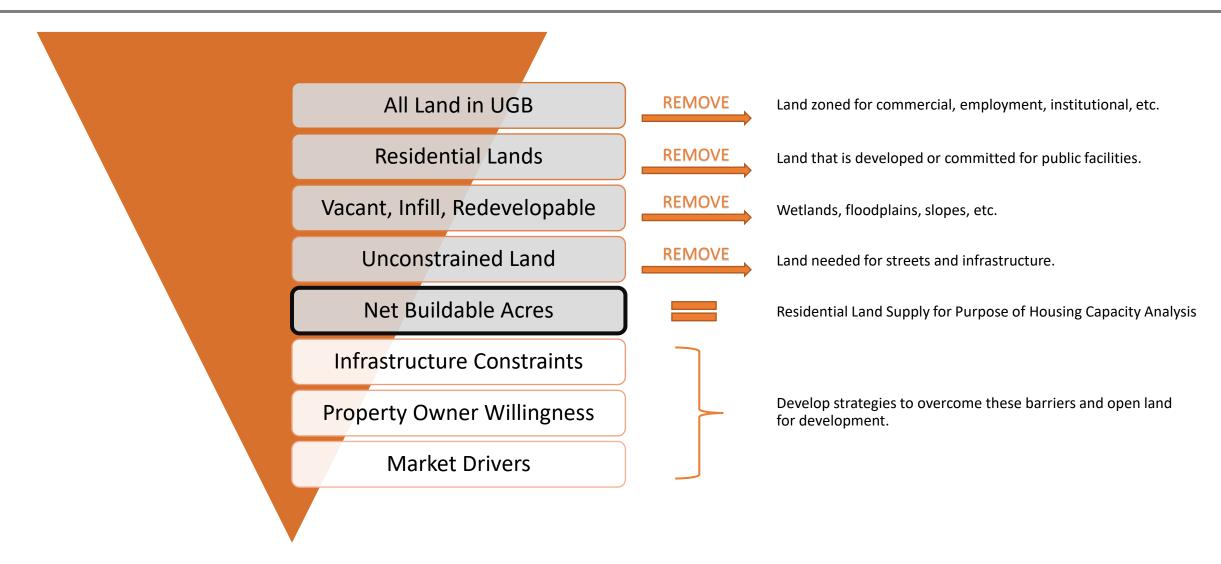

## **BLI: Land Supply Funnel**

#### Buildable Lands Inventory (BLI): Legal Framework & Methods

#### State requirement for a Housing Needs/Capacity Analysis per:

- OAR 660-007: Metropolitan Housing
- OAR 660-024-0050: Land Inventory and Response to Deficiency

#### Methodology and precedent:

- Follows the BLI methods established by the Metro Urban Growth Report (2018)
- Informed by Clackamas County HNA (ECONW, 2019) methods and results

## BLI Step 1: Identify Constraints

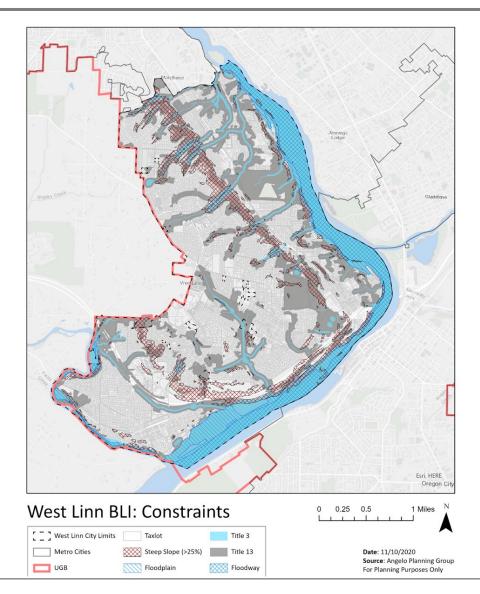

Identified and removed the following constraints (data retrieved from Metro RLIS):

- Steep slopes (>25%)
- Floodplain and floodway
- Title 3 and 13

#### **Environmental Constraint Summary**

Constraint	Total (acres)
Total	4,811.4
Steep Slopes	586.4
Floodway	511.9
Floodplain	216.6
Title 3	1,013.6
Title 13	2,482.9

# BLI Step 2: Classification of Land

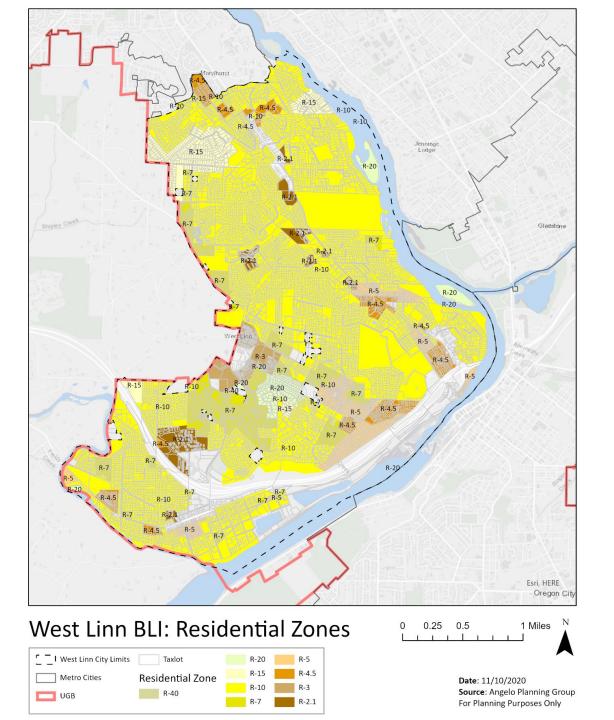

#### Residential zoning designations:

- Single-Family Detached (R-40, R-20, R-15, R-10)
- Single-Family Detached and Attached/Duplex (R-7, R-5, R-4.5)
- Single-Family and Multiple-Family (R-3, R-2.1)

Zone/Comp Plan	Constrained (acres)	Unconstrained (acres)	Total (acres)
R-40	0.0	0.9	0.9
R-20	60.0	43.0	103.0
R-15	80.2	86.4	166.6
R-10	1,344.2	1,184.0	2,528.2
R-7	72.0	193.4	265.4
R-5	33.5	101.9	135.5
R-4.5	56.9	70.5	127.4
R-3	14.7	55.0	69.7
R-2.1	39.7	62.9	102.6
Total	1,701.2	1,798.0	3,499.2

## BLI Step 3: Development Status

#### Development Status Criteria for Residential Tax Lots:

- Vacant: No existing development
  - Fully vacant, based on Metro aerial photo
  - > 2,000 square feet AND < 10% developed</li>
- o Infill: Large lot that can accommodate more development
  - Has an existing single-family detached home
  - > 5 times minimum lot size AND < \$300k building value
- Committed: Properties that cannot accommodate residential development:
  - Common or public ownership
  - In public or private right-of-way
- Developed: Tax lots assumed to be fully developed. All remaining lots that have not already been assigned a development status.

## Tax Lot Development Status

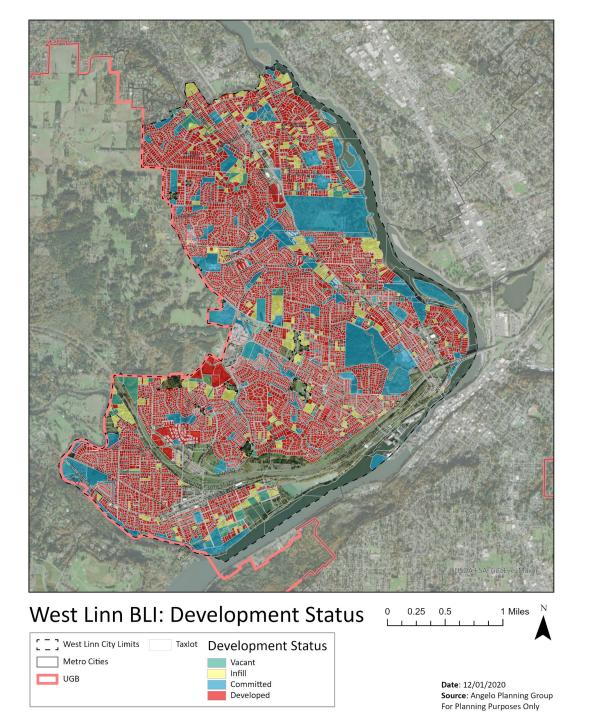

- Most vacant and infill lots are in R-10 zone (492). Total vacant and infill: **706**
- Approximately 7% of residential lots have development capacity (i.e. vacant or infill)

Zoning/ Comp Plan	Vacant	Infill	Committed	Developed	<b>Grand Total</b>
R-40				1	1
R-20	1		15	139	155
R-15	13	5	5	292	315
R-10	280	212	225	5,302	6,019
R-7	37	11	40	1,076	1,164
R-5	37	30	47	612	726
R-4.5	35	33	34	440	542
R-3	2	1	21	310	334
R-2.1	4	5	686	241	936
<b>Grand Total</b>	409	297	1,073	8,413	10,192

West Linn Development Status Web Map <u>here</u>.

# BLI Step 4: Development Capacity (Area)

Buildable land: Unconstrained acreage with future right-of-way/streets removed:

- < 3/8 acre, 0% set aside for future streets.</p>
- Between 3/8 acre and 1 acre, 10% set aside for future streets.
- > 1 acre, 18.5% set aside for future streets.

Residential	Vacant	Infill	Grand
Area			Total
R-40			
R-20	0.0		0.0
R-15	6.1	1.2	7.3
R-10	38.6	106.2	144.7
R-7	5.6	10.3	15.9
R-5	3.3	9.9	13.2
R-4.5	3.1	11.3	14.5
R-3	0.1	0.2	0.4
R-2.1	0.4	1.9	2.3
<b>Grand Total</b>	57.3	141.0	198.3

### BLI Step 4: Development Capacity (Housing Units)

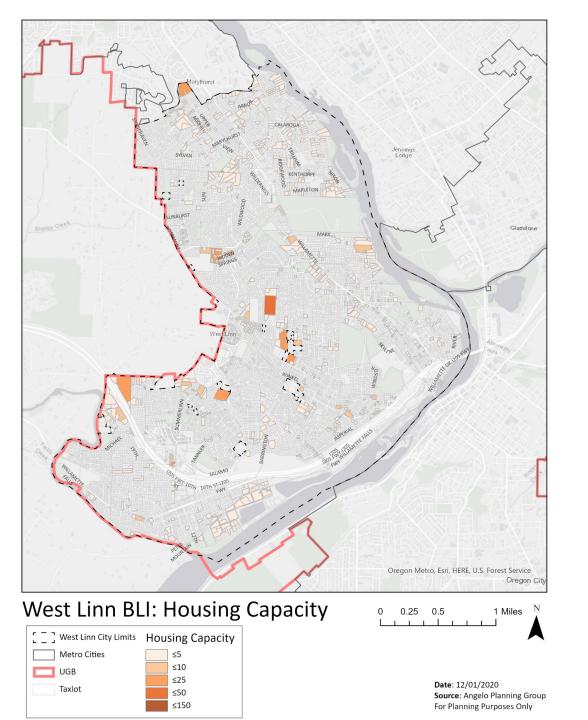

Housing Unit Capacity: Buildable acreage multiplied by assumed density for each zone

Residential Area	Assumed Density	Vacant	Infill	<b>Grand Total</b>
R-40	1.2 DU/acre			
R-20	2.5 DU/acre	1		1
R-15	3.5 DU/acre	29	5	34
R-10	5 DU/acre	318	489	807
R-7	6.5 DU/acre	46	63	109
R-5	9 DU/acre	40	76	116
R-4.5	10 DU/acre	40	105	145
R-3	14 DU/acre	2	2	4
R-2.1	20 DU/acre	7	36	43
<b>Grand Total</b>	N/A	483	776	1,259

#### Next Steps: HCA

- Online outreach
- Draft Residential Land Needs Analysis (RLNA)
- Advisory Committee meeting #2 (date TBD)
- Draft Measures to Accommodate Needed Housing
- City staff and Advisory Committee drafts for Options for Changes to Comp Plan and Code
- Advisory Committee meeting #3 (date TBD)
- Online outreach #2
- Adoption-ready HCA
