Planning Commission - Work Session

PLN-19-02
Update Storm Drainage Master Plan
September 4, 2019

What Are the Support Documents?

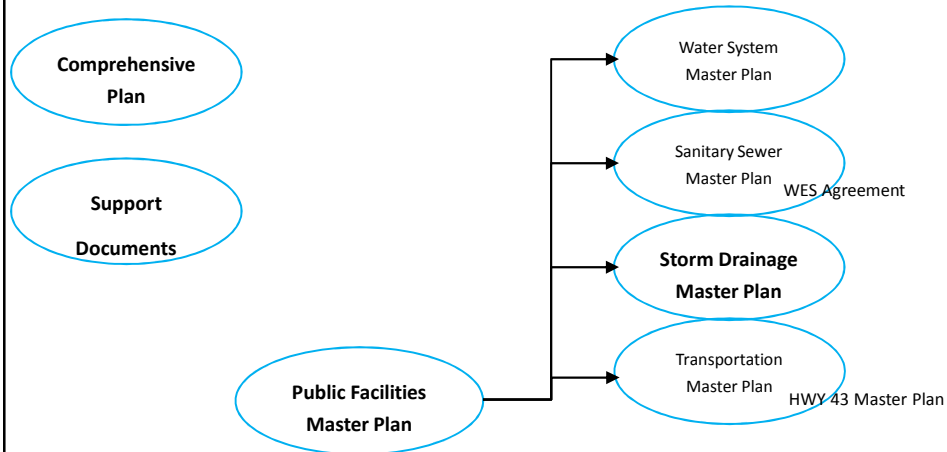

The plan is a set of findings, goals, policies and action measures that address all applicable statewide planning goals.

The plan's support documents provide the objective data and research into current conditions, issues, and trends. This information can be found in the supporting documents:

- Public Facilities Master Plan
 - Transportation Systems Plan
 - Hwy 43 Corridor Plan
 - Sanitary Sewer System Master Plan
 - Water System Master Plan
 - Storm Drainage Master Plan
- 2013 Parks, Recreation and Open Space Plan
- 2013 Trails Plan

Other plans exist (have not been identified as support documents)

Comprehensive Plan and Public Facilities Plans - Storm Drainage

What are typical contents of support documents?

- ◆ Inventory of the system
- ◆ Condition index of the inventoried system
- ◆ Prioritization of the conditions index
- ◆ Comprehensive Plan items
 - Background
 - Goals
 - Policies
 - Recommended Actions

The Use of Support Documents

- General education on the city's infrastructure.
- A ready resource to evaluate questions related to water, sewer, storm drainage or transportation
- A guide to identify known problem areas
 - Lack of service
 - The area needed to extend
- To consider overlapping issues, transportation issues and storm water issues
- Others?

Ordinance 1696 – Amends the Plan, CDC and adopts the Storm Drainage Master Plan

There are two draft versions of the Ordinance:

FIRST: The application package contained a proposed set of changes. That information was used to place the changes in Ordinance (draft) format. Minor amendments were incorporated by staff when providing notice to DLCD and posting on the web site.

SECOND: Public Works Department submitted an amendment that removes most of the changes from the proposed ordinance. This has not been incorporated into ordinance format yet.

The question raised is – “How does the Planning Commission wish to address the ordinance in coming to a recommendation?”

Next steps

- ✦ This second worksession before the Commission was
 - to provide answers to any questions that were raised tonight.
 - to provide review the draft ordinance and provide a copy for your review at the next work session.
- ✦ A public hearing is tentatively scheduled for October 2 to develop a recommendation for City Council.
- ✦ Thoughts from the Planning Commission?
