General Discussion occurred:

Why do we exist as a committee? Advisory board for the purpose of giving advice for public safety to citizens.

Dennis discussed the process of the committee being changed from Police to Public Safety.

Do ride-a-longs with officers is a good idea (Grant and Chuck suggested this)

Good relationship with school district and kids and chamber of commerce with the businesses. Reach out and make connections with them – school district and businesses. Arthur Gloer has connections with School District – communicate with the kids.

Middle school resource officer would be beneficial.
Talk to classrooms.

Half committee should focus on business with chamber being target and half work on school side.

Business checks – do we do that – can we do that – Officers do this already.
Ask Chamber what they would like.
