Email from WLWV School District Board appointing a committee regarding the Small School Issue to bring forth recommendations on closure of Bolton, Cedaroak or Stafford primary. Apparently the new Trillium school is overcrowded and the district could simply re-draw boundaries and re-balance student loads.

Ploy by district to close schools and sell off real estate to backfill budget shortfalls or fund new Frog Pond school in Wilsonville? City of West Linn needs to rezone properties as 'Public Use' to forestall district school site sales.
