4. Neighborhood updates:

- Speaker Lance ----- from public works talked about his department, the duties they perform, some of the projects they have done and overseen. If residents have issues they can either go to yourgov app or call 503-722-5500. Also should use the city web site to get codes and info on projects. He also talked about the STC's the city gets for new construction homes and how much that helps the city and as we run out of land you will see more homes torn down and rebuilt and how the city doesn't get STC's for these.
- Lance also mentioned that both sides of Parker & Rosemont near the new Tanner creek development will be redone sometime next year. Once the street plans are completed they will be put on the web site, under public works, private development.
- Horton Rd median issue- Lance said that this is part of the city and any planting is done in the fall and maintained once a year. Need to follow up with Jeff Randel.
