6. New Business

- Transportation System Plan Discussion – David shared information about the West Linn Transportation Plan. Below is a list of topics that came up during the discussion.
 - The new road design on Rosemont will be the model for future construction
 - Speed on Rosemont (in the new construction area) has been observed to be slower
 - Mailboxes have been moved away from Rosemont with the exception of one resident who lives near the East end of the new construction. She still has to walk across Rosemont and stand in the road to access her mailbox.
 - Concern was expressed about the curbs on driveways that empty onto Rosemont from the North side of the street. Residents want a wider entry point to their driveways to allow for safer turns on and off Rosemont.
 - Everyone is pleased with the new left-turn stoplights on Salamo and Rosemont
 - Discussion of other road development and GO Bond funding for Hwy 43
 - Discussion of extending safe sidewalks on Rosemont to Summit

7. Community Comments

- Neighbors adjacent to the Shannon Lane development discussed the progress that they have seen on the project. The developer has purchased the property that is on the edge of the development area – a key step toward moving forward with the development.
