

CITY OF

West Linn

2020/21 Sustainability Advisory Board Climate Action Goals

This document lists the 2020/21 climate action goals proposed by the Sustainability Advisory Board for West Linn that we believe should be priorities

GOAL 1: Develop a proposal to get all city buildings into the *Leaders in Sustainability* program from Clackamas County by **(DATE)**

NOTES

- There is no cost and important to maintain. Buildings could include library, police station, city hall, adult community center, public works building, old former fire stations etc.

GOAL 2: Develop a proposal to complete a city energy audit by **(DATE)** to establish a baseline from which energy use and materials consumption can be measured.

NOTES

- Enlist assistance from third-party experts.
- Proposal to include recommendation that the City begin benchmarking for City operations, with the ultimate goal of creating an annual report that features energy and water use, and waste and diversion rates.
- Proposal to recommend funding a staff position, internship, or contractor devoted to the area of sustainability, based on council goals and the goals listed in the Sustainable West Linn Strategic Plan.

GOAL 3: Continue and expand our Sustainability Education Series workshops and/or begin development of online resources for West Linn citizens. First resources should be available by **(DATE)**.

NOTES

- Possible topics include: energy use reduction, reduce, reuse, recycle, gardening with natives and reducing the use of chemicals.

GOAL 4: Join Columbia Clean Cities <https://www.cwcleancities.org/membership/members> by **(DATE)**.

NOTES

- Possible topics

GOAL 4: Yabadabadoo by **(DATE)**.

NOTES

- Possible topics
